London, Wembley | +44 7538 636207 | [mohammedawidan@yahoo.com](mailto:mohammedawidan@yahoo.com)

**Portfolio:** [awidan.co.uk](http://awidan.co.uk) | **LinkedIn:** [linkedin.com/in/awidan](https://linkedin.com/in/awidan)

### Summary

Innovative and detail-oriented Web Developer with over two years of hands-on experience in HTML5, CSS3, and JavaScript frameworks like React and Angular. I specialise in creating responsive, user-centric websites for startups and small businesses, with a proven track record in managing end-to-end web development projects. Passionate about leveraging my skills to drive digital transformation and enhance user experience. Ready to bring my expertise to a dynamic team in a professional office environment.

### Experience

#### Front-End Web Developer

*Giga.ly | Tripoli, Libya*

*09/2022 – 03/2023*

- **Website Development:** Led the design and development of responsive websites for Libya's largest ISP, optimising for user experience, accessibility, and visual appeal.
- **Project Leadership:** Spearheaded the launch of a B2C e-commerce platform, coordinating with design and marketing teams to ensure timely and successful deployment.
- **Internal Tools Development:** Engineered a custom management platform for B2B and B2C support teams, streamlining request handling and improving network reliability through a tailored Zoho integration.

#### Internship: Junior Web Developer

*Innovative Solutions | Tripoli, Libya*

*06/2022 – 08/2022*

- **Front-End Development:** Contributed to front-end component development using HTML, CSS, and JavaScript (React, Angular) for client websites, ensuring adherence to best practices.
- **Code Optimisation:** Enhanced website performance using tools like Lighthouse, improving load times and overall user experience.
- **Team Collaboration:** Worked closely with senior developers to troubleshoot and refine web features, learning to deliver high-quality code under tight deadlines.

#### Team Leader & Project Manager

*Enactus AASTMT Sheraton | Cairo, Egypt*

*09/2017 – 12/2019*

- **Project Leadership:** Led a 15-member team on the "Lazarus" Project, transforming barren lands into productive agricultural ventures through sustainable practices using "Ergofito" for soil rehabilitation.
- **Market Expansion:** Facilitated the successful marketing of organic crops both locally and internationally, significantly increasing income

opportunities for farmers in stronger currencies.

- **Vendor Management:** Negotiated contracts with Cairo-based printing factories, managing production costs, quality, and delivery timelines for promotional and recruitment materials.
- **Digital Presence:** Directed the creation and maintenance of the project's online presence, enhancing visibility and engagement through an effective website and social media strategies.

## Skills

- **Web Development:** HTML5, CSS3, JavaScript (React, Angular, Node, Vue), RESTful APIs, Headless CMS, Git
- **Design Tools:** Adobe Creative Suite, Figma, Prototyping, UI/UX Design
- **Project Management:** SCRUM, Agile Methodologies, Cross-functional Team Leadership
- **Customer Support:** CRM Systems, Issue Resolution, Client Communication
- **SEO & Accessibility:** On-page SEO, Web Accessibility Standards, Lighthouse Testing, Performance Optimization
- **Vendor Negotiation:** Pricing Strategies, Quality Assurance, Logistics, and Supply Chain Management

## Education

### Bachelor of Science in Computer Science: Information Technology for Business

*Coventry University | Coventry, UK*

2024

- **Dissertation:** Business Intelligence's Impact on Decision-Making in SMEs (Graded 72%)
